

Give It A Whirl

Split Enz

I saw you there by the side of the road
You wore long faces and long overcoats in the rain

Waiting for hours to carry you home
Winter wind rushes and rattles your bones it's a shame

I can see no sign of action in your eyes
There's a thrill that you'll never know if you never try

Remember taking a ride on a Ferris wheel
And really enjoying yourself bye bye blues
Remember taking a bet on a race
You faced the future with a smile on your face
Win or lose

No, I don't mean to preach, I don't mean to patronize
There's a thrill you'll never know if you never try

Why don't you give it a whirl...
No, never give up,
Giving in, it's like kissing goodbye
There's a thrill that you'll never know if you never try
