

In the Wars

Split Enz

Prepare to die
Prepare to meet your maker
He who's a pax vobiscum is a traitor
And later blood running rivers
Stand and deliver

Because we're in the wars
We're trying to get our lives
Because we're in the wars
Behind enemy lies

You can't relax
The world will tax your reasons
Beyond your guard, it's always hard to preserve
Your values, they'll try and shell you
And overwhelm you

Because we're in the wars
We've got to get our lives
Because we're in the wars
Behind enemy lies
