

# Miss Haps

Split Enz

Signs her name Miss Haps  
Find her in a flat  
Don't be courteous  
You'll be courting disaster-er-er-er-er

Strange girl, something's amiss  
Haphazard with a twist  
I'm non-plussed  
You're planet-struck [?]  
You're a walking faux-pas

My Miss Haps  
You can't do that  
Miss Haps  
Please shut your trap

Watch her walking the street  
Mayhem, may I repeat  
Slamming doors and broken jaws  
Well, I think perhaps she's hapless

Open Pandora's Box  
She's cursed and gone to the dogs  
Oh, oh, my misfortune, my miscarriage  
I love you only

My Miss Haps  
You can't do that  
Miss Haps  
Please shut your trap

Miss Haps  
You can't do that  
Miss Haps  
Please shut your trap  
Ooh!

Sink or swim on her, I do  
We're both in the same boat  
Fish out of water, lambs to the slaughter  
It's open warfare on us

We who start from scratch  
That's me and my mismatch  
Oh, oh, my misfortune, my miscarriage  
I love you only

My Miss Haps  
You can't do that  
Miss Haps  
Please shut your trap

Miss Haps  
You can't do that  
Miss Haps  
Please shut your trap  
Now!

My misfortune, my miscarriage  
I love you only

My Miss Haps  
You can't do that  
Miss Haps  
Please shut your trap

Miss Haps  
You can't do that  
Miss Haps  
Please shut your trap  
Ooh!

Yeah!
