

Black No Cream No Sugar

Sponge Cola

The line begins in your mind
It needs to be fine
It needs to be true

Time
It needs to slow down
But here we are now
What are we to do?

The sun is about
There's people around
People looking at ya like you need to be found
Gotta be quick
Staple should be fine

No time to be creative
Cause it's already late
Take a "t" out of the latte
And it spells a mistake
Gotta be quick
Let's go with the staple

Black No Cream No Sugar
Black No Cream No Sugar
Black No Cream No Sugar
Black No Cream No Sugar

Black No Cream No Sugar
Black No Cream No Sugar
Black No Cream No Sugar
Black No Cream No Sugar

I can almost taste all the bitterness
That's about to come my way

Can you tell I'm only half awake?
I'm team no sleep gotta circulate
Yeah
I gotta find a way to caffeinate
Five minutes to brew
Turning me into a zombie

The sun is about
There's people around
People looking at ya like you need to be found
Gotta be quick
Staple should be fine

No time to be creative
Cause it's already late
Take a "t" out of the latte
And it spells a mistake
Gotta be quick
Let's go with the staple

Black No Cream No Sugar
Black No Cream No Sugar

Black No Cream No Sugar
Black No Cream No Sugar

Black No Cream No Sugar
Black No Cream No Sugar
Black No Cream No Sugar
Black No Cream No Sugar

Black No Cream No Sugar
Black No Cream No Sugar
Black No Cream No Sugar
Black No Cream No Sugar

Black No Cream No Sugar
