

## Punch in the Nose

Sponge

You can punch me in the nose  
You can punch me on the chin  
But you punch me in the heart  
And thats a fight I'll never win

Your kiss may love so sweet girl  
But you hit me like a man  
I should have saw it comming  
I guess I should have ran

(I do not need this)  
Let me show you how it feels  
(I do not need this)  
Let me show you how it feels  
(I do not need this)  
Let me show you how  
I never hit a girl before

You can punch me in the nose  
You can punch me on the chin  
But you punch me in the heart  
And thats a fight I'll never win

You can punch me in the nose  
You can punch me on the chin  
But you punch me in the heart  
And thats a fight I'll never

How did you get the best of me  
I'll never understand  
Its hard to get to sleep at night  
With my balls in your hand

(I do not need this)  
Let me show you how it feels  
(I do not need this)  
Let me show you how it feels  
(I do not need this)  
Let me show you how  
I never hit a girl before

You can punch me in the nose  
You can punch me on the chin  
But you punch me in the heart  
And thats a fight I'll never win

You can punch me in the nose  
You can punch me on the chin  
But you punch me in the heart  
And thats a fight I'll never win

I could never hurt you  
I could never really hurt you  
Girl I could never hurt you  
Feeling so bad

Oh (I do not need this)

Let me show you how it feels  
(I do not need this)  
Let me show you how it feels  
(I do not need this)  
Let me show you how  
I never hit a girl before

You can punch me in the nose  
You can punch me on the chin  
But you punch me in the heart  
And thats a fight I'll never win

You can punch me in the nose  
You can punch me on the chin  
But you punch me in the heart  
And thats a fight I'll never win  
Thats a fight I'll never win  
Thats a fight I'll never win  
Thats a fight I'll never win  
Thats a fight I'll never win

You can punch me in the nose  
You can punch me on the chin  
But you punch me in the heart  
And thats a fight I'll never win
