## Velveteen

Delux Sublime Gigantic for all times And space I wish for you the stars Bow down I wish for you their infinite crown In Velveteen I will surround With Velveteen In your name In Velveteen I will surround I'll keep this velvet In your name I'll keep this velvet From the rain So long, sleep well Your purity speaks well As you lay With al these flowers In your bed With all these flowers You had left to give away In Velveteen I will surround In Velveteen

In your name In Velveteen I will surround I'll keep this velvet In your name I'll keep this velvet From the rain Sponge
