

Pyramids

Spooky Tooth

Wrote a million pages
On pyramids in the sun
Of dreams and things of lovin'
With you it cast...

I know where I'm goin'
But Lord where do I come from

We travel along the long road
To be where we are now
I found myself beside you
I never will know how

I know where I'm goin'
But Lord where do I come from

I got truth in my heart
I need you to make a start
Give me life when it's done
Send me love in your heart
Send me love, send me love
Send me love, send me love
I know where I'm goin'
I know where I'm goin'

The time's come for me
To be the man I am
Without your love and feelin'
My life will never stand

So take my simple learnin'
Use it for your gain
And never trust the eyes of one
That colored you with shame

I know where I'm goin'
But Lord where do I come from
