

# Don't Let It Get You Down

Spoon

Kay made it to where most never been  
Fixed up outside and broke within  
She always said goodnight  
Knowing wrong from right

But on the way the top  
They showed her things she never thought  
And left her down in the dumps  
All day and all of the night

Don't let it get you down  
Kay grew up without making a sound  
But skipped ahead to settled sown  
Aw won't you come out tonight  
Don't let it get you down
