

# Don't You Evah

Spoon

Bet you got it all planned right  
Bet you never worry  
Never even feel a fright  
Bet you got it all planned right  
Never fit to worry  
Never even feel a fright.

Single sleeps alone  
And I know you don't really mind  
Five years by your side  
So I know you really don't mind

But don't you love her  
Deep down  
I said don't evah  
Cause it's gonna keep him hanging around

Never  
Deep down  
I said don't evah  
Because it's gonna keep him hanging around

Don't you never think it's right  
Bet you think you had to but it doesn't feel right  
Bet you never think it feels right  
Famous-sounding words make your head feel light

Petals getting picked  
With the love-yous  
And the love-you-not

Five years going by  
Everyone is standing on their side

But don't you love her  
Deep down  
I said don't evah  
Because you're gonna keep him hanging around

Never  
Deep down  
I said don't evah  
Because it's gonna keep him hanging around

But don't you love her  
Deep down  
I said don't ever  
Because it's gonna keep him hanging around

Five years going by  
Everyone is standing on their side

Never  
Deep down  
I said don't ever  
Cause it's gonna keep him hanging around

Five years going by  
Everyone is standing on their side

I said don't ever need to worry  
Cause it's gonna feel all right

Never
