

# The Infinite Pet

Spoon

Hung up and bent on a stranger  
Just trying to swing a full-time ride  
I never knew the cold hand of danger  
Till I met this one and took it inside

Now I can't get near it  
Don't want to hear it  
My cover's blown  
I walked in the rain like a drone  
All the way to Marquette

The infinite pet

I got something to tell you  
Far outside the black and the white  
Aw I got something I want to tell you  
But who will receive it tonight  
When I got up I cut my neckrug off  
Resigned my name to the ranks of the blamed and the scoffed  
Cursing the day I met

The infinite pet  
Comes when you pirouette

Hung up and bent on a stranger  
Just trying to hitch a full-time ride  
I never knew the coat check was danger  
Till I met this one and took it inside

I sat back I put my neckshirt on  
Resigned myself to the fate of the failed and the conned  
Just like the day I met

The infinite pet  
Cheaper than all your threats  
Comes when you pirouette  
How'd you pay back that debt  
The infinite pet  
The infinite
