

Thinking Problem

Sprung Monkey

Fear is a feeling that just won't subside
It's literally controlling and destroying your mind
Living off the thoughts of what it could've should've been
You feel the pressure slowly closing in
You locked yourself so you can't get out
Of this world you created from your own self-doubt
You'd better change your attitude really really quick or live with something called fear
That's right fear
You don't go out because of your fear
Stay locked in your world because of your fears
Well I understand that the world comes crashing down
But you've gotta stand tall got to hold on to your ground
Yes, I understand the pain you must feel
But you've gotta stand tall to see it all clearly
You gotta problem
With your thinking
You gotta problem
With your thinking
I can see you hold in your pain because of your fears
Never letting anyone get close because of your fears
Well I understand that the world comes crashing down
But you've gotta stand tall got to hold on to your ground
Yes I understand the pain you must feel
But you've gotta stand tall to see it all clearly
You gotta problem
With your thinking
You gotta problem
With your thinking
Because your fears are ruining you
'Cause I've seen what they've done to me
That's right your fears are ruining
That's right your fears
You got a problem with your thinking when your fears
Suppress so bad you don't
Do the things you really want to do
Or feel the way you want to feel
You got a problem
With your thinking
You got a problem
You got a problem with your thinking
You got a problem with your thinking
You got a problem with your thinking
