

Ice Age

St. Vincent

Oh diamond,
How we've been
Oh diamond,
It's such a shame
To see you this way, freezing it out
Your own little ice age

Ice Age [x2]

Oh diamond,
Get out of bed
All of your tend
Seams are showing
And you're freaking me out, freezing it out
Your own little ice age

Ice Age [x4]

We won't know just what we lost until your winter thaws

Oh diamond,
Where have you been
It's close to your bones
It's far from your shell
So feel it away, reason it out
In your own little ice age

Thaw me out, Thaw me out
