

## In the Meantime

Stacy Barthe

Some sick part of me misses the misery  
Yet it's sleeping all alone even though, even though  
Too could too be just as lonely  
When you're lying in the bed with your back turned to me  
When I try to touch you, feels like you don't want me to  
So I try to kiss your neck but you're just not into it  
Or maybe you're just not into me... you just could never seem to  
o

Love me, love me, love me  
Love me, love me, love me, in the meantime... time

That same sick part of me  
Use to wish that I could be like the girls you like... you like  
A little more pretty, a little more skinny, a little bit of everything I'm not  
No wonder why you're lying  
When you're lying in the bed with your back turned to me  
When I try to touch you, feels like you don't want me to  
So I try to kiss your neck but you're just not into it  
Or maybe you're just not into me... you just could never seem to  
o

Love me, love me, love me  
Love me, love me, love me, in the meantime... time

Nobody, nobody wants to be invisible... nobody  
Nooooobody what to be invisible... you just could never seem to

Love me, love me, love me  
Love me, love me, love me, in the meantime... time

Nooooobody what to be invisible [x2]
