

# Cup Inside A Cup

Stalley

Hey

Pioneer sounds banging out the coup  
Cup inside a cup, hanging out the roof  
Faded  
Eyes high red, keep my pupils shaded  
Elated Benz, freshly painted  
Skating  
You know my daily operating  
Get money, keep away from hating  
Staying sucker-free, my only occupation  
Laying with a bad dub, playing doctor-patient  
Go all bling around my neck dangling  
Darling  
This is pimpin' at it's finest  
Black bottles and blue dreams sitting by the grinder  
While the Chevy's outside, sitting on wires  
Full time grinders, only n-ggas in my circle  
Do one of them harm and I will hurt you  
We be breaking curfew  
Break bread, never break the circle  
Was taught breaking loyalty will haunt and curse you  
So every n-gga behind me now will be behind my Hearse too

Side cups slowly ghost  
This killer got this cup inside

Soak up the city as I sip slow  
On my porch as I watch the little kids grow  
Up in to hustlers, dope criminals  
Fascinated by cars and cars stereos  
My granny said it's my fault because they all want to mimic you  
Pretty women fly clothes and some tennis shoes  
And they all wanna get it too  
They might grow up and actually really want to get at you  
So watch it mister flashy, or watch kinda flashy  
And these n-ggas ask me 'Why don't you show them love?

'And your click been the same since a little part'  
Well since I'm blowing up, n-ggas started to showing up  
Hate started to accumulate, n-ggas was trying to kill my ball  
And I've been light years ahead of these motha...  
Ma, full of that purple stuff, so all that grieving and beefing  
Go ahead and muzzle it up
