

# Long Way Down

Stalley

Hey, hey, hey  
Yeah we crawl up to the top in this savage world  
Probably... probably headed,  
That's mine to talk!

So don't get too comfortable,  
Cause it's a long way down!

A rebel with a cause, here to take it off  
See that crown that you wear?  
It's time to take it off!  
Red cross in the mighty grip  
We bare arms, talking' never bite the lip  
This is true warrior music, we're central list  
Black listed from these black Instagram lists  
Even though we're struggling black kids  
The fact is we're just hustling so the dirt lift'  
A savage raised in the jungle  
Among and daemons in these jungle  
We do anything just to live up in this jungle  
No trees, just concrete, it's hard to breathe up in this jungle  
But we rumble in this jungle, six degrees up in this jungle  
No separation, always hard to leave up this jungle.  
And we wonder why we turn bad when we come past this jungle  
Cause we done see and had enough bad  
While living through this struggle!

Yeah we crawl up to the top in this savage world  
Probably... probably headed, that's mine to take  
So don't get too comfortable, no, no!  
Sit still on the top of the world now  
Nothing's can't leave the place  
So don't get too comfortable,  
Cause it's a long way down!

Black mens, black love, the hood terrorist  
Intelligent, psychopaths, the world scared of us!  
The skin of a million slaves, they don't tearing us  
Show up at your master's door, ain't no fearing us.  
We berry love, seen slug with this rapping message  
We've been in the trap too long, we just want our leverage  
Gave in time, set to hell, now we want our heavens  
Kings and Alexander McQueen and some Jordan sevens  
rebellious scary can't suck their tails in  
Before we're marching' to tell in  
And tell salvation or they take my hands and jammed'  
Crucified by Lucifer, only sick of being poor  
Guess we got the show in, no choice to do it right or bad  
We were forced in,  
Poor souls with poor pockets searching for a fortune  
Crawling out this hole, we was tossed in  
Coming from that crown that you floss in!

Yeah we crawl up to the top in this savage world  
Probably... probably headed, that's mine to take  
So don't get too comfortable, no, no!  
Sit still on the top of the world now

Nothing's can't leave the place  
So don't get too comfortable,  
Cause it's a long way down!
