

My Thoughts

Stalley

Yeah, yeah
Yeah, yeah
Correct

My thoughts range between a sane and deranged man
('Ranged man)
It's like I'm playin' a game of hangman (Hangman)
I live around the corner from gangland
Up the street from heaven
Hope I see it one day, man (One day, man)
Get my family out the struggle - the game plan
Execute, never die, loot how I came in
Make moves, pay dues, help up the next man
Stay secure, never feel threatened

My thoughts

Buckle up on this ride
Seven-hundred horses got me floatin' by
Straight to the bank with this
Throwin' up shots got me bankin' shit
But I guarantee the next gon' swish
Trae Young with the right arm
If it's difficult, then you know I fight on
Ain't no loser, I'm a icon
Anyone one tell you different, then despite them
I'm pipin'
Up like a Indian Chief
You see the smoke signals every time I get on the beat
I make the world nervous every time I step on the street
My shit quake
No debate, we ain't runnin' elections
Watch your tone, young boy, or go run for protection
It's a blessin'
I been so cool for so long
Now, I'm on my hot-headed shit, strap my boots on
Ski mask, no cold weather
In the drop top with the extras
Got the pole tether, my soul severed
My warm heart is a cold letter
Written in blood, true thug
2Pac definition
Immune to the hate you give
Ain't worried 'bout opinions, I don't faced some shit
