

One More Shot

Stalley

Take one more shot for the liquor
A little more liquor
Yeah, one more shot for the liquor
Just a little more liquor

He used to see the night
You're free tonight?
Take one more shot for the liquor
A little more liquor

Take another shot
Now were on bullshit
Six more shots
If we do then were on the full clip
Party over here
Party next door
Party on the dance floor
Ladies everywhere
Cush in the air
She don't even smoke like that
Got afraid to back off 2 hits
In the club 4 bottles
You got to let me now
When you're ready to give up first

Take one more shot for the liquor
A little more liquor
Take one more shot for the liquor
Just a little more liquor

My Jesus is frank
My Jesus is right
He used to see the night
You're free tonight?
If you feel the night

Take one more shot for the liquor
A little one liquor
Marijuana still there
I just label in the game
Sitting on my chain
I ain't got to prove it
Yeah boy, I do this
We just tryin' to party
I don't want to hurt nobody
But my nigga got the hammer
And hes about to kick
And girl I got the keys
Whenever you wanna leave
Old school in the lot
Lookin' like a new wing

First you wanna pick for the print
Guys will be on me like I got a new chick
Shortys so bad
I have to flex
Take another shot just because, cause

The nigga from the buzz, I ain't tryin' to lose it

Take one more shot for the liquor
A little more liquor
Take one more shot for the liquor
A little more liquor
Just a little more liquor

My Jesus is frank
My Jesus is right
He used to see the night
You're free tonight?
If you feel the night

Take one more shot for the liquor
A little more liquor

Every bitch in the club got a hand up
I got to stay about
Twenty bottles
So don't tell me what your tab about
305, So you better have that map out
Introduce you to these niggas that I rap about
Pull a strap out
Nigga you better back down
Like a stripper
Don't you do the tax now
Hit the bar and the bottles are all black now

Take one more shot for the liquor
A little more liquor
Take one more shot for the liquor
Just a little more liquor

My Jesus is frank
My Jesus is right
He used to see the night
You're free tonight?
If you feel the night

Take one more shot for the liquor
A little more liquor
