

# Don't Worry Baby

Stan Walker

Sip my drink, you got your glass of wine  
But I can't help thinking we're wasting time  
Like would you die, would you die for me  
Like would you lie, would you lie for me  
Bittersweet things that makes you smile  
Little things like that make it worth a while  
'Cause I would die, I would die for you  
And I would lie, I would lie for you

I've been thinking of the deeper love  
Every second focused on you  
Nothing covered up, a naked love  
And everything we'll every go through

I would run through fire  
Just to touch you burned and bruised  
So don't worry, baby  
I gotchu, baby  
Now I would swim through oceans  
Just to kiss you black and blue  
So don't worry, baby  
I gotchu, baby

"Go crazy" must be your favourite line  
But I'm just tryna make you realize  
That when you're all alone, you can call on me  
Just pick up the phone, I'll be there for you

I've been thinking of the deeper love  
Every second focused on you  
Nothing covered up, a naked love  
And everything we'll every go through

I would run through fire  
Just to touch you burned and bruised  
So don't worry, baby  
I gotchu, baby  
Now I would swim through oceans  
Just to kiss you black and blue  
So don't worry, baby  
I gotchu, baby
