

One Thing

Stan Walker

One thing, one thing that I need ya
One thing, one thing

Save me girl, she's the reason that can't sleep now
But nothing seems to work, to cure the hurt
That's pulling on my heart strings now

Baby 'cause there's so much more I wanted but
You didn't really give me the chance to tell you
'Cause my heart could say a thousand words
But it wouldn't change the fact that your gone

So if there's one thing that I could say to you
Then I'd tell you I love you
You're the one thing I need in all my life

One thing, one thing that I need ya
One thing, one thing that I need ya
One thing, one thing that I need ya
You're one thing I need in all my life

Here I am, you can't take me if you wanted to
You've changed your plans
Wish I could turn back time again

Baby, 'cause there's so much more I wanted but
You didn't really give me the chance to tell you
'Cause my heart could say a thousand words
But it wouldn't change the fact that your gone

So if there's one thing that I could say to you
Then I'd tell you I love you
You're the one thing I need in all my life

One thing, one thing that I need ya
One thing, one thing that I need ya
One thing, one thing that I need ya
One thing one thing one thing

Baby girl, I need ya
You are the one thing that
I want more than a Bugatti
Shorty, I guarantee that

I know there's more than one thing
That you want me to change
Like how I act, talk, think
Plus you wish you can change my way but

Baby girl, don't you worry about a thing
'Cause my love for you will always remain plus
You can call me Dwain
But that's one thing that will never change

I will trade a thousand days
Of heartbreak for one day of
Holding you and never letting you go

That's something I can't have

So if there's one thing that I could say to you
Then I'd tell you I love you
You're the one thing I need in all my life
So if there's one thing that I could say to you

Then I'd tell you I love you
You're the one thing I need in all my life
One thing, one thing that I need ya
One thing, one thing that I need ya
One thing, one thing that I need ya
