

Ultralight Beam

Stan Walker

We on an ultralight beam
We on an ultralight beam
This is a God dream
This is a God dream, yeah yeah
This is everything, yeah

Deliver us serenity
Deliver us peace
Deliver us loving
You know we need it, yeah
That's why we need you now, oh I
Pray for the world, pray for the parents
This is a God dream, yeah
This is a God dream

We on an ultralight beam
We on an ultralight beam
This is a God dream
This is a God dream, yeah yeah
This is everything, everything

I'm tryna keep my faith
But I'm looking for more
Somewhere I can feel safe
And end my holy war
I'm just tryna keep my faith

So why send oppression not blessings?
Why oh why did you do me wrong?
You persecute the weak
Because it makes you feel so strong
Don't have much strength to fight
So I look up to the light
To make these wrongs turn right
Head up high

I look to the light
'Cause I know that you'll make everything alright
And I know that you'll take good care of your child
Oh, no longer am I afraid of the night
'Cause I, I look to the light

When they come for you, I will shield your name
I will field their questions, I will feel your pain, mmh
They don't know
They don't, they don't know

We on an ultralight beam
We on an ultralight beam
This is a God dream
This is a God dream, yeah yeah
This is everything, yeah, yeah, yeah

Yeah, yeah
That's why we need you now
Pray for the world
Pray for the world

We need a God dream
Stop all the fighting
Too many people dying
We need love, peace and healing
This is my God dream
