

Song For The Night

Stanfour

Looking through the window,
Shadows on the bedroom walls
Imaginary monsters,
I hide it all behind your doors,
With the night, comes to goes
When the light disappeared
Know that I won't let go
And if dreams become real

We should kno-o-w o-w o-w
Knows a dream, knows a rebel
And we should kno-o-w o-ow o-ow
Not here, not now, not ever
When your're cold, when you're lost and you fall from the light
I will stay by your side with the song for the night
With the sound... for the night...

I can feel your heart beat
Fear was growing in your eyes
But you and me, we are all alone
And soon there will be clear blue skies
With the night, comes to goes
When the lights disappear
Know that I won't let go
And if dreams become real

You should kno-ow o-w o-w
Knows a dream, knows a rebel
You should kno-ow o-w o-w
Not here, not now, not ever
When your're cold, when you're lost and you fall for the lights
I will stay by your side with the song for the night

...the night will find, some piece of mine,
Knowing you be safe, sleep tonight,

...with the song for the night...
And you should kno-ow o-w o-w ow
Is not a dream it's now a rebel
you should kno-ow o-w o-w ow
Not here, not now, not ever
When your're cold, when you're lost and you fall for the lights
I will stay by your side with the song for the night
o-w o-w o-w ow
o-w o-w o-w
o-w o-w o-w ow
o-w o-w o-w
With the song for the night
With the song for the night
