

# Human See, Human Do

Star One

Where do you come from, where is your tribe?  
you should not be here, you can't be alive  
a vicious killer, you'll never be tamed  
you belong in this cage

Why do you fear me, what have I done?  
I mean no harm, never hurt anyone  
I'm not a liar, what proof do you need?  
how can I make you believe?

Drive him back, he must be the last  
from beyond the zone  
save our future, bury our past  
it must never be known

Beware the beast, there's danger in his eyes  
I see the truth slipping through  
beware the beast, don't believe his lies  
human see, human do

Your proof is empty, conjecture at best  
you're not superior, we're not impressed  
go find your fate, the lot of mankind  
you won't like what you find

Your scrolls are lying, man was here first  
we are superior, just like on earth  
you know the secret, why can't you share?  
tell me why you're so scared!

Drive him back, he must be the last  
from beyond the zone  
save our future, bury our past  
it must never be known

Beware the beast, there's danger in his eyes  
I see the truth slipping through  
beware the beast, don't believe his lies  
human see, human do

See no evil  
hear no evil  
speak no evil  
do no evil

Drive him back, he must be the last  
from beyond the zone  
save our future, bury our past  
it must never be known

Beware the beast, there's danger in his eyes  
I see the truth slipping through  
beware the beast, don't believe his lies  
human see, human do
