Top Of My Lungs

Starfield

Don't let your mind deny what your heart believes Leave your inhibitions let your soul be free This is why you were created it's your destiny It's alright it's alright

Who the son sets free yeah they are free indeed So let go with me come on and sing what you believe

We're gonna shout his praise at the top of our lungs We're gonna dance for the glory of the risen son We're not ashamed not ashamed of the one we love We're gonna shout his praise at the top of our lungs

This is the praise of a people that have been redeemed This is the joy of the lord and the sound of the free This is why we were created it's our destiny It's alright it's alright

Who the son sets free yeah they are free indeed So let go with me come on and sing what you believe

We're gonna shout his praise at the top of our lungs We're gonna dance for the glory of the risen son We're not ashamed not ashamed of the one we love We're gonna shout his praise at the top of our lungs [x3]
