

The Way I Do

Starkid

TOOTSIE-

When they say you can't love,
I think you've got it wrong
When They say you can't feel,
with a heart made of steel
But you can't say that steel ain't strong
Well if that's who you are,
just a meaningless star in the sky
Tell me what is the meaning of what I am feeling
if you are the reason why?
Now I may be dumb
But where I come from
Folks say they're fine when I know that they're blue
But you don't know you
The way I do

MEGAGIRL-

Your race is frail and weak,
and I want to destroy you all
You're a sorry disgrace,
to the concept of race
And to logical science and law
But for some reason why,
when you look at me I don't wanna be
Programmed this way,
believe when I say
You're the one anomaly
You might not be smart
But there is a part of me

That's starting to make a break through

No, you don't know you

The way I do

TOOTSIE (PARANTHESIS MEGAGIRL)

I never expected

(My wires are protected,

from abnormal things like you)

To find, someone like you

(When you know everything,

it is suddenly strange when you don't have a clue!)

I don't know anything, but you're giving me a clue

TOOTSIE AND MEGAGIRL-

I can see past, the, surface

Finding the worth that is hiding beneath

You're life, and, purpose

And all of a sudden I feel like

I've run into something that no one has seen!

FEBUARY (PARANTHESIS BUG)-

You're perfect and wonderful

How I hoped you'd be

(February, I...)

But it's really enough

For you to be just a human being

(There's something I need to tell you...)

And I'll know you'll agree

That's all we need to make our dreams come true

(Your dream come true,

but I need to share something with you...)

If this life has ending,
I'm glad that I'm spending,
this short little time with you

FEBUARY AND BUG-

I'm so much more, than what you've thought before,
Now that we have got you too

FEBUARY-

Get to know you

MEGAGIRL-

You don't know you

BUG-

But you don't know me

TOOTSIE, MEGAGIRL, FEBUARY, AND BUG-

The way I do...
