

# Heart On Defrost

Starlito

My heart on defrost  
Catch a play and then I speed off  
'Bout 20 missed calls  
From my bae she say we need to talk  
We damn near argue every day for no reason at all  
Been grinding harder every day 'fore I leave I'mma ball  
Ain't no sleeping, ain't no slipping at all  
Grab my pistol 'fore I dip, you think I'm tripping, but naw  
I'm a high risk, just how I'm living, I don't forgive, I can't  
forget it dawg  
I have these visions and keep drifting off  
I need to leave that purp alone  
Do no disturb me, I ain't heard my phone  
I'm riding dirty but I serve alone  
I smoke two and sold about 30 [?]  
And to keep from killing you, shit I just murder songs  
They keep asking what I'm working on  
Shit, patience  
Rebuilding one of my houses and my rentals need renovation  
Back rapping, it's therapeutic, plus I know they investigating  
If I can weather the storm, well I know that the blessings wait  
ing  
Waking up going running, or yoga and meditation  
Still tote, hope I never use it, I don't know about hesitating  
Common sense, if you got consequences better face it  
Niggas be catching cases  
Then they start giving statements  
How you gon' play the victim  
That's your choice and you made it  
Really ain't complicated, so I minimize conversations  
All these niggas is rats, I'm used to dealing with snakes  
I put my feelings away  
I've been feeling my [?]  
Every time I slide home, I ain't been feeling as safe  
So I'm outta there, relocating in 30 days  
Trapping out a AirBnB, fucking up shawty rating  
Yeah, it's in her name, but she gutta, it's in the game (in the  
game)  
Like EA, the DA know me by my rap name  
Task force think I'm selling H, know I Shute like my last name  
Back on that bullshit just like I was 'fore the bag came  
I don't act the same  
When you having change sometimes you have to change  
I'm still myself, real with myself and that's what matters most  
I know what's true, nothing to prove, so I don't have to post  
You can tap it and snap a captioned quote (Lito)  
Back at it, I might've been happier when I wasn't rapping though
