

# How I'm Living

Starlito

This how I'm really living this how I'm living  
They wanna lock me in that building niggas prolly want to kill  
You will die if I slip that's wise whip  
One in the hole everywhere I go I ain't trip  
[x2]

You ever seen a handgun chopper that's a semi automatic  
In the spot with a carbon in the kitchen by the baggies  
Drop a quarter in the water made it harder for the addicts  
Bought the etch ch ch ch  
Stretch a nigga on the trap  
Lito that's my people play with him and then it's up up  
My limit is they bag give the word then they pulling no dough  
You meditate the murder game all bitch niggas getting plush  
The stick on put the bliss on y'all bitch niggas getting rushed  
Work the camera and I'll get time all nighters in my bitch ride  
Kill it then alive on a server seven with 65  
My coke will leave ya with the big eye  
Tan leave em all slumped over  
Got bars like give me yo bitch nigga  
I'm fucking goose she coming over  
That's how I'm living  
Spitting til I'm infinite  
Free all my niggas getting it  
Made a killing out the kitchen  
And I don't care who there  
Admit it come through there  
My spot like a salon  
Everybody done do her (nigga fuck your favorite DJ)

This how I'm really living this how I'm living  
They wanna lock me in that building niggas prolly want to kill  
You will die if I slip that's wise whip  
One in the hole everywhere I go I ain't trip  
[x2]

Niggas in the courtroom with my name in their mouth  
These niggas ain't really about the shit they say they're about  
Now we ain't running out my people straight in the drought  
I short you better check it might not weigh that amount  
Little Didi hit me up ain't said they ain't got out  
They ain't living like this I ain't worried about them taking my style  
Get them out the vacuum seal yeah break it right now  
They said they ain't diamond sealed going straight out of town  
They say a nigga rap like I'm still running a course  
Since a young been scarred plus I can't remember nothing about them bars  
Lito would've done like he don't come with a charge  
Can't do nothing but go hard gotta bear my arm for the mark

This how I'm really living this how I'm living  
They wanna lock me in that building niggas prolly want to kill  
You will die if I slip that's wise whip  
One in the hole everywhere I go I ain't trip
