

# Wasn't Wrong

Starlito

[Starlito:]

I wasn't wrong  
But I can't move on, yeah  
I put my heart in my pocket, that's only part of the problem  
Cuss her out tonight and then call her tomorrow  
Lito...

I apologize, yeah I'm sorry you doubted me  
Since we parted ways, I've been going harder without you  
We agreed to let it go, so why are we arguing about it?  
I put my heart in my pocket, that's only part of my problem  
I came up crooked and foolish, it all started in projects  
To really pullin' up shooting, like James Harden with them rock  
ets  
I don't start just to stop, so I'ma give it all that I got  
Sometimes I wonder, would you want me if I was balling or not?  
I wonder who gon' really ride for me when all this shit stop  
It's 'bout the time I move my money to a whole 'nother spot  
Fuck it I'm going all in, you probably fold for the flop

[B-Rad:]

Girl you said you'd be there for me  
So I'm not wrong, when I move on  
Girl you said you'd be there for me  
So I'm not wrong, when I move on

[Starlito:]

I just rap 'cause this shit therapeutic  
I survived a fucking scary movie  
I ain't guilty of what they accusing  
I watched the news and my life feel like it's their amusement  
Either way I lose, so I put that shit all in my music  
Then I come home and bring up shit I ain't got shit to do with  
Look I can't tell who really with me and it get confusing, I'm  
disillusioned  
You live and you learn, I'm just a student, but I come to this  
conclusion

[B-Rad:]

Girl you said you'd be there for me  
So I'm not wrong, when I move on  
Girl you said you'd be there for me  
So I'm not wrong, when I move on

I don't know if we each have a destiny or if we're all just flo  
ating around accidental-like on a breeze  
But I think maybe it's both
