

Catch Me If You Can

Stars Go Dim

Today I watched you
Smile like a child
With an innocent look
Coming from your eyes
You were laughing and having fun
On a carousel ride
You were shy at times
But sweet as can be

And I've always loved you
Since we were five
And now we're twenty-one
You're still the light of my life
And just when I think
I've finally figured you out
You go and run and hide
And play a game of

Catch me if you can
Coz when I do
I'll never stop loving you
So catch me if you can
Coz someday I will, yes I will

You've been living on cotton candy dreams
And wishing stars
And playing twenty questions
All day with my heart
And just when I think
I'm finally slowing down
You just run away
Smile and say

And no matter how hard
You decide to play
Or lead me to this life
I'll always feel the same
With each passing day
I get closer to you
To loving you

Catch me if you can
Coz when I do
I'll never stop loving you
So catch me if you can
Coz someday I will, yes I will, yes I will
Yes I will
Say you will
If you can, if you can
Say you will
Coz someday I will
Oh, someday, someday I will
