

For Worse Or Better

Stars Go Dim

I remember when I found you
Don't know how I went without you
You were my wonder drug
I couldn't get enough
We were living life in moments
Holding time like we stole it
We were just crazy kids
Do you remember when

We were dreaming 'bout the good life
Making up our highlights
For worse or for better
Now we're stuck in a dark night
Looking for the sunrise
For worse or for better (For better)
Don't you remember (Remember)
When we said forever?
If we could make our love right
We can make it our life
For worse or for better

For worse or for better
For worse or for better
For worse or for better
For worse or for better

Now I'm standing here without you
And I swear that I'm about to
About to lose control
But I can't let go
I'm not giving up this easy
No one told us this was easy
We could love again
If we remember when

We were dreaming 'bout the good life
Making up our highlights
For worse or for better
Now we're stuck in a dark night
Looking for the sunrise
For worse or for better (For better)
Don't you remember (Remember)
When we said forever?
If we could make our love right
We can make it our life
For worse or for better

For worse or for better
For worse or for better
I'll never live without you
Could never live without you
I'll never live without you
Could never live without you

We don't say goodbye
We said forever, ever
We won't say goodbye

No, we won't ever, ever
We don't say goodbye
No, we won't say goodbye
We say forever, ever
We don't say goodbye
We don't say goodbye, no

I could never live without you
(For worse or for better)
For worse or for better
I could never live without you
(For worse or for better)
For worse or for better (For worse or for better)
Don't you remember (Don't you remember)
When we said forever? (When we said forever?)
For worse or for better
For worse or for better

For worse or for better
For worse or for better
For worse or for better
For worse or for better
