

## I Believe

### Stars Go Dim

When the darkness never leads to sunrise  
When the light brings trouble of its own  
And all the pain shows no sign of stopping  
Even here, I know I'm not alone

I believe Your goodness never fails  
I believe Your power will prevail  
Even when the night is long  
Still, I know You're holding on to me  
I believe

When the questions never have an answer  
When a miracle's the only option left  
Jesus, I know that you hear me praying  
Even here, It's not over yet

I believe Your goodness never fails  
I believe Your power will prevail  
Even when the night is long  
Still, I know You're holding on to me

Oh Jesus, I believe, I believe, oh

Even here I know that You are faithful  
Even here I know You're on my side

I believe Your goodness never fails  
I believe Your power will prevail  
Even when the night is long  
Still, I know You're holding on to me  
Ooh, I believe  
I believe
