

# Invisible

## Stars Go Dim

I know you're lonely  
More than you say  
I know you're fighting  
Day after day  
To make it through one more

I know you wonder  
If anyone sees  
The wars that you're fighting  
From down on your knees  
It's more than you can take  
But hear me when I say

You're not invisible  
You're not invisible  
When the pain won't let go  
When the tears overflow  
You are never alone, no, no  
You're not invisible

There is somebody  
Strong when you're weak  
His name is Healer  
His power can defeat  
The deepest of your fears  
And He's standing with you here

You're not invisible  
You're not invisible  
When the pain won't let go  
When the tears overflow  
You are never alone, never alone

You're not forgotten, you're not abandoned  
You are treasured, you are seen  
Held by the Father, now and forever  
Loved beyond your wildest dreams

You're not forgotten, you're not abandoned  
You are treasured, you are seen  
Held by the Father, now and forever  
Loved beyond your wildest dreams

You're not invisible  
You're not invisible  
When the pain won't let go  
When the tears overflow  
You are never alone, no, no

You're not invisible  
You're not invisible  
When the pain won't let go  
When the tears overflow  
You are never alone, no, no  
You're not invisible
