

Like I Mean It

Stars Go Dim

How do I learn to fly?
When I am down on my knees
How can I learn to love?
When I'm always begging you please

I've spent most of my life
Trying just to get by
Spent most of that time
On losing you

Now I gave you reasons
Disregarded feelings
Convinced myself that it's all true.

How do I learn to fly?
When I am down on my knees
How can I learn to love?
When I'm always begging you please

How many moments passed me by?
How many times have I said I won't try...
To live my life and love like I mean it?
How many days will slip away?
How much pain does it take to see it?
To live my life and love like I mean it

I keep all my secrets
Hid away down inside
Keep telling myself
Lie after lie

Now I played the part
Of a man with many hearts
But none of them ever meant to hurt you
Cause all I do is push you away
I'm gonna love Like I never ever loved before
I'm gonna live Like I only have one last wish
I'm gonna be everything you ever wanted
Everything you need

Show me how to fly
Get me back on my feet
Don't give up on me
I am begging you please
