

Revival

Stars Go Dim

You've been waiting for a miracle
Searching for something new
Trying to find a new beginning
But yesterday won't let you
There's still hope on the horizon
Lift your eyes, you're gonna find it

Like streams in a wasteland
Life to a dead man
It's letting go of history
For something new, something free
It's more than survival
This is revival
Revival

When you've prayed a thousand prayers
Waiting for change to come
When the night is dark remember
There's hope at the break of dawn
Keep on fighting for the breakthrough
Don't give up, it's gonna find you

Like streams in a wasteland
Life to a dead man
It's letting go of history
For something new, something free
It's more than survival
This is revival
Revival

Open your eyes and see it
Open your heart believe it
Come back to life, come back to life
This is a life of freedom
This is a brand new season
Come back to life, come back to life

Like streams in a wasteland
Life to a dead man
It's letting go of history
For something new, something free
It's more than survival
This is revival
