

See You

Stars Go Dim

I feel the fabric of my heart, tearing seams
Up all night wondering where You are, what this means
Then I see You, then I see You
And You make it better

I see the future of our world fading come
Seems like we're loosing all the doves, gaining vultures
Then I see You, then I see You
And You make it better

Even when the water's rising
Even if the sun stop shining
As long as You're right beside me
I know it, I know it
Even when the water's rising
Even if the sun stop shining
As long as You're right beside me
I know that we'll survive it

I'm in the desert filled with thirst, never taste
The only want to that I feel You replace
When I see you, when I see you
You make it better

Even when the water's rising
Even if the sun stop shining
As long as You're right beside me
I know it, I know it
Even when the water's rising
Even if the sun stop shining
As long as You're right beside me
I know that we'll survive it

Even in the wars we fighting
Even in the depths of silence
As long as You're right beside me
I know it, I know it
Even in the wars we fighting
Even in the depths of silence
As long as You're right beside me
I know that we'll survive it

You make it better
You make it better
When I see you
You make it better

Even when the water's rising
Even if the sun stop shining
As long as You're right beside me
I know it, I know it
Even when the water's rising
Even if the sun stop shining
As long as You're right beside me
I know that we'll survive it

Even in the wars we fighting

Even in the depths of silence
As long as You're right beside me
I know it, I know it
Even in the wars we fighting
Even in the depths of silence
As long as You're right beside me
I know that we'll survive it

Even when the waters are rising
I know it, I know it
Even if the sun stop shining
I know that we'll survive it
Even in the wars that we fighting
I know it, I know it
As long as You're right beside me
I know that we'll survive it
