

Walking Like Giants

Stars Go Dim

Life seems like a uphill battle
Like more than you can handle
But we have a hope that it's real
And there's power that lives inside us
We were made with hearts like lions
We're not given a spirit of fear
His strength inside us, we are fighters
Made to rise, with faith alive
We're standing Ten-Feet high

We're not giving up, when struggles come
There're not big enough
There's no stopping us, we're fearless inside
We're walking like giants
We're not giving up, with every step
He's still here with us
Whatever comes our way
We'll be walking like giants
Walking like giants

It might seem like the biggest mountains
Got you surrounded
But there's a God above it all
No fear, we keep moving forward
Ya, we're marching on like soldiers
No such thing as impossible

We're not giving up, when struggles come
There're not big enough
There's no stopping us, we're fearless inside
We're walking like giants
We're not giving up, with every step
He's still here with us
Whatever comes our way
We'll be walking like giants
Walking like giants

Whatever may come, we're rising above
Through fire or rain, nothings stopping us [x2]

We're not giving up, when struggles come
There're not big enough
There's no stopping us, we're fearless inside
We're walking like giants
We're not giving up, with every step
He's still here with us
Whatever comes our way
We'll be walking like giants
Walking like giants

Whatever may come, we're rising above
Through fire or rain, nothings stopping us [x2]
