

# ALCHEMY

Starset

Alchemy, alchemy  
Tell me what you've done to me

I waited 'til the Moon had risen high  
Escaped your tide and pull on me  
I piloted the labyrinths of lies  
Haunted by the hooks in me

And now I'm falling right back  
Into the trap that you set for me  
Back inside your spell  
I'm back in your sorcery

Alchemy, alchemy  
Tell me what you've done to me  
Synthesized and transformed  
Pathetic lifeform  
Alchemy, alchemy  
I don't want your drug in me  
You get me high 'til I want more  
But you hit like chloroform  
You hit like chloroform

I fell in right for the fantasy  
Enchanted by the chemistry  
The more that you took, the more I see  
I'm locked inside a conjuring  
I'm just a mannequin, stuck  
In your plans to get struck  
By the trance you put me in  
Plant your curse under my skin

It's alchemy, alchemy  
Tell me what you've done to me  
Synthesized and transformed  
Pathetic lifeform  
Alchemy, alchemy  
I don't want your drug in me  
You get me high 'til I want more  
But you hit like chloroform (But you hit like chloroform)

I let the beast in you get the best of me  
Tossed aside like old debris you don't need  
I finally removed the mask you made  
So you can't hide the masquerade underneath  
(Underneath, underneath, underneath)

And now I'm falling right back  
Into the trap that you set for me  
Back inside your spell  
I'm back in your sorcery

Alchemy, alchemy  
Tell me what you've done to me  
Synthesized and transformed  
Pathetic lifeform  
Alchemy, alchemy

I don't want your drug in me  
You get me high 'til I want more  
But you hit like chloroform  
You hit like chloroform
