

# LEAVING THIS WORLD BEHIND

Starset

Beautiful, new frontier  
High above the rain in the atmosphere  
What wonders I have discovered  
My soul is everclear  
Never felt the way I do with you here  
I hope there's never another

So sing tonight  
We're everbright  
Burning through space, I see your face  
I could beat Kryptonite  
We're so alive  
Forever high  
Hold on my dear, there'll be no fear  
Leaving this world behind  
(This world behind)

Far away, above the Earth  
We'll soar through the curvature  
Away from all our dark matters  
And escape the barriers  
That we've manufactured  
Going into the hereafter

And I'll wait if you take forever long  
I'll listen for your song

So sing tonight  
We're everbright  
Burning through space, I see your face  
I could beat Kryptonite  
We're so alive  
Forever high  
Hold on my dear, there'll be no fear  
Leaving this world behind

So sing tonight  
We're everbright  
Burning through stains, I see your face  
I could beat Kryptonite  
We're so alive  
Forever high  
Hold on my dear, there'll be no fear  
Leaving this world behind  
(This world behind)

Leaving this world behind  
(Leaving this world behind)
