

# MANIFEST

Starset

Fall in and fall away  
This love is in retrograde  
Fall in and fall away  
I can see the darkness  
Manifest

Gravity  
I pull on you,  
Close enough to rendezvous  
You come to me and then you slip right through  
I'm in the solitude  
Why's it always touch and go?  
Now we'll never even know what it's like.  
Left me in the afterglow,  
Till I'm falling through space and time.

Starlight star bright,  
You got your missiles flying through the air tonight  
And it's alright alright,  
I think I'm getting used to the fire-fight

Cause you fall in and fall away  
This love is in retrograde  
Fall in and fall away  
I kinda think you like this  
Regress  
Fall in and fall away  
There's something in the hate we make  
Fall in and fall away  
I can see the darkness  
Manifest

Every time I'm on to you  
You change it up, you always do  
So tell me why you gotta bring your guns?  
It's Armageddon

Why's it always touch and go  
Now we'll never even know what its like  
Left me with no place to go  
Till I'm falling through space and time, time

Starlight star bright  
Every night you're dimmer, have you finally fell?  
You said it's alright, alright  
But I've been getting ready for the bombshell

Cause you fall in and fall away  
This love is in retrograde  
Fall in and fall away  
I kinda think you like this  
Regress  
Fall in and fall away  
There's something in the hate we make  
Fall in and fall away  
I can see the darkness  
Manifest

Is my fate silver-lined?  
I always was the optimist  
But I never thought of this  
Stuck in this state, misaligned  
Trapped inside the looking glass  
Tell me when it all will pass  
Oh how I hate the silver line  
Never could taste your life  
Never my place and time  
Left behind  
Never your state of mind  
Never in phase with mine

Cause you fall in and fall away  
This love is in retrograde  
Fall in and fall away  
I kinda think you like this  
Regress  
Fall in and fall away  
There's something in the hate we make  
Fall in and fall away  
I can see the darkness  
Manifest
