

WHERE THE SKIES END

Starset

In a restless search for new opportunities and new ways of living
The mystery and the promise of distant horizons
Always have called men forward

We are the lost and the silent
We are the shackled and small
We're looking up at the giants
We're going to watch when they fall

Do you hear me?
Got the highest to me
I'll be there when the bombs until the war is over
Lay your burdens on me
I can bear all the weight of the world with you on my shoulders

We were just following
We were just born to fade
A story surpassed the horizon
We're chasing the sun until we find them

Goodbye to what we made
No matter anyway
We're climbing until we transcend
Higher, higher
To where the skies end

These are the dreams of our fathers
They'll be long wishing on stars
We are the sons and the daughters
Let them come test who we are

Can you hear me?
Got the highest to me
I'll be there when the guns break out till the storm is over
Lay your burdens on me
I'll be there when your fate runs out you'll be on my shoulders

We were just following
We were just born to fade
A story surpassed the horizon
We're chasing the sun until we find them

Goodbye to what we made
No matter anyway
We're climbing until we transcend
Higher, higher
To where the skies end

We left our chains
We left them below
We are all rising above
We were not born to stay low
Show me you're safe
It's more than you know
You never know what you're made of
Till you set foot down below
We ruled this And when the sharks smell the blood

They won't see us at all (all, all, all, all)

We were just following
We were just born to fade
A story surpassed the horizon
We're chasing the sun until we find them

Goodbye to what we made
No matter anyway
We're climbing until we transcend
Higher, higher
To where the skies end

In a search that has continued for centuries
Some far distant
With this promise of the unseen
And it's promise of the unknown
As forever farther being
To seek for new things in new places
New horizons

Battery's low
Shutting down
