

Give You All My Time To Save

State Radio

Sunshine you caught me sleeping
And I woke to your skies so grey
But I lay cold in the power of your keeping
So please don't take it all away

Sunshine you fell down on me
As I was fast asleep
And now you woke in the power of your keeping
Just proved a second too late

Me I'm just calling you over
By the power of your own rays
And if I had half a mind
I'd give you all my time to save

Sunshine was I so blind
That I could not see your face
Wont you lend me half a mind
So I can have my time to save

Sunshine, you caught me sleeping
As I woke to a world so gray
But I lay cold in the power of your keeping
So please don't take another second away

Me I'm just calling you over
By the power of your own grace
If I had half a mind
I'd give you all my time to save

Sunshine, was I so blind
That I could not see your face
And would you give me half of mind
I'll give you all my time to save
