

Electric Pulse

Static-X

It's time to melt you down
It's time to strap you in
Your mind's about to be diminished

I scream to get me off
Air blast to pull you in
You feel the atrophy

Electric
Electric pulse

Nightmares to shut you down
Static to keep you in
Darkness what you don't see
Atomic

Shockwaves to set you off
It's time to throw the switch
It's time that you recieve

Electric
Electric pulse
