

Mystery Island

Status Quo

Away, away from the madding crowd
I sit and dream oh I'm singing out loud
under that coconut tree I'll close my eyes
drift away and think of you
walking on in the sand
I'll take your hand and lead you to

Mystery Island, Mystery Island
in the sun yeah
Mystery Island, take me away from it all
you don't look back, you don't look back
you just leave your worries behind
you wanna stay on Mystery Island

Today I'm daytripping out to sea
like the bird on the wing
nothing's bothering me
I wanna be flying high
up to the clouds
with my feet still on the ground
I'll drift away I know I'm safe
now that I've found my

Mystery Island, Mystery Island
in the sun yeah
Mystery Island, take me away from it all
you don't look back, you don't look back
you just leave your worries behind
you wanna stay on Mystery Island

(I've found my)
Mystery Island, Mystery Island
in the sun yeah
Mystery Island, take me away from it all
You don't look back, you don't look back
you just leave your worries behind
you wanna stay on Mystery Island
