

## So Ends Another Life

Status Quo

In a world of education  
There's no time for compassion  
Life's a fire, never ending  
Bringing pain and then befriending

And like a fire that burns no light  
And drifts to Heaven, so ends another life  
Is there time to care, it's only fair but life goes on  
And on and on and on, 'til in the end you don't be long

So ends another life  
To let this world go on  
Don't cry for pity my friend  
You never gave none

There's a hunter with his gun  
Pointing upwards to the sun  
Thinks a bird can feel no pain  
If it can, it won't again

And like a fire that burns no light  
And drifts to Heaven, so ends another life  
Is there time to care, it's only fair but life goes on  
And on and on and on, 'til in the end you don't be long

So ends another life  
To let this world go on  
Don't cry for pity my friend  
You never gave none

So ends another life  
To let this world go on  
Don't cry for pity my friend  
You never gave none
