

## Create Your Fate

Steadman

Create Your Fate  
If you say nothing will be coming your way  
What may come you chase it away  
Create you own fate

If you smile something in the worlds gonna change  
Something in you won't be afraid  
Create your own fate

Will you be missed when you are gone?  
If something shifts do you take too long?

You're feeling so misunderstood  
It's like an endless ocean  
you count to ten but it's no good  
You find you're wasting your time  
But doesn't it feel good

Is it late nothing comes to us on a plate  
No thank you I already ate  
Create your own fate

Will you be missed when you are gone?  
If something shifts do you take too long?

You're feeling so misunderstood  
It's like an endless ocean  
You count to ten but it's no good  
You find you're wasting your time  
But doesn't it feel good
