

# Shining

## Steel Pulse

Night time is growing old  
New breezes kinda cool  
So raise up raise up  
This could be your time yeah yeah yeah

Raise up you head  
Raise up and live  
A new day again right on time  
So open your eyes  
Lift up your head  
Things to be said in this time

So summer is here  
And flowers in full bloom  
The sun is in the air  
Get up get out  
Try and find out  
What life what life what life  
Has in store for you

Sunshine is shining  
Sunshine is shining  
Sunshine is shining  
Sunshine is shining

The sun is the light  
The moon and the stars  
That guides in the day and loves in the night  
So open your eyes  
Lift up your head  
Thing to be seen in this time (hey)

Raise up your head  
Raise up and live  
A new day again right on time  
So open your eyes  
Lift up your head  
Things to be said in this time

So summer is here  
And flowers in full bloom  
The sun is in the air  
Get up get out  
Try and find out  
What life what life what life  
Has in store for you

Sunshine is shining  
Sunshine is shining  
Sunshine is shining  
Sunshine is shining

The sun is the light  
The moon and the stars  
That guides in the day and loves in the night  
So open your eyes  
Lift up your head

Things to be seen in this time (hey)

Raise up your head  
Raise up and live  
A new day again right on time  
So open your eyes  
Lift up your head  
Things to be seen in this time

For summer is here  
And flowers in full bloom  
The sun is in the air  
Get up get out  
Try and find out  
What life what life what life  
Has in store for you
