

# What's On Your Mind

Stefanie Heinzmann

Two hearts are beating  
I think it's synchronicity  
We got this feeling  
That no one else can touch  
Sereal speakers  
We play a perfect harmony  
I know your secrets  
Like nobody else

And when you move your lips  
I got the feeling that you're with me  
And it's to way a thing  
It's a workany trait thing  
And everytime I'm down  
When the world is feeling heavy  
I know you'll be right here by my side

I see you  
You see me  
You can always tell  
What's on my mind  
We don't need words to speak  
'Cause I can always tell  
What's on your mind  
What's on your mind

The air between us  
Is filled with artillebricity  
Electric signals  
That no one else can see  
Two different people  
We go together perfectly  
And only we know

How we make it work  
When I'm losing weight  
And the floor starts spinning  
You're the one standing  
You'll be holding my hand and  
Everytime I'm down  
When the world is feeling heavy  
I know you'll be right here by my side

I see you  
You see me  
You can always tell  
What's on my mind  
We don't need words to speak  
'Cause I can always tell  
What's on your mind  
What's on your mind

(Do-do-do-down)  
(Do-do-do-down)  
(Do-do-do-down)  
(Do-do-do-down)  
(Do-do-do-down)

(Do-do-do-down)  
Down, down, down, down

I see you  
You see me  
You can always tell  
What's on my mind  
We don't need words to speak  
'Cause I can always tell  
What's on your mind  
What's on your mind
