

All It Takes

stellar*

I'm in control of nothing
I'm looking out for something
On and on and ordinary
A need to satisfy
Held in check all my emotions
I don't want to keep it in i wanna feel alive
All it takes is a breath away
All it takes is the will to sacrifice
All it takes
I'm looking out for someone
Whos not afriad of anyone
Everybody needs a conscience
How far can we all go
Pull apart or come together
Use my affection until there's nothing left to show
Chorus
One more way to wind up hollow
One more way to pay the price
All it takes
One more way to wind up hollow
