

I'm out of here, mhm (I had enough)  
All stressed out boy, ooh (you gotta go)  
It's not healthy for me (and that's for sure)  
I can do better, yeah (all on my own)

I'll always miss our company  
But you pushed me to the limit  
You're lonely  
I gotta stay away  
I gotta get away  
From you

You're out of my life, it's for the better  
Still thinking that we belong together  
Still feel like you own me  
Just let me be  
I wanna be free  
I wanna be free from your love  
I've been chained in prison  
You know I'm not happy  
Just let me be  
I wanna be free

I'm doing fine boy (without you)  
It feels so good to know  
That we are through  
It feels so good to know  
I have a life  
I can now walk with my head held up high  
Bye bye bye

I'll always miss our company  
But you pushed me to the limit  
You're lonely  
I gotta stay away  
I gotta get away  
From you

You're out of my life, it's for the better  
Still thinking that we belong together  
Still feel like you own me  
Just let me be  
I wanna be free  
I wanna be free from your love  
I've been chained in prison  
You know I'm not happy  
Just let me be  
I wanna be free

Let me be free (free, free)  
I wanna be free (free, free)  
Just let me be free, free, free...
