

## Stomach Worm

Stereolab

The world is full of indisputables  
(With whom all of us share reality)  
The world is in fact just that  
(A long indisputable and rich tradition)  
The world I know of I'm extrusive  
(To be jealous is to conform)  
Not the only one  
A nominal thing  
The law of division  
Jealousy will make you suffer  
(From being excluded from the universal)  
Jealousy will make you suffer  
(From being "crazy from being a woman")
