

# Big Lady Lovin

Steriogram

[Verse One]

Well your mum is the mum, And she likes to fight  
Listen to her heartbeat , You cant see me  
She's the queen of putting out campfires  
Second to the market but she wont feed me  
Well she rise on her size, Keeps her eyes on the prize  
Gotta fridge, four remotes, And a couch with a TV  
She don't use no tact when she's on the attack  
Cause something had to get me going

[Chorus]

Because I've never seen such waves  
Like when your mama swam that day  
Well I'm thinking about your mum  
And when I asked her what she'd done  
She called it hiding from the sun  
Well I'm thinking about your mum  
So tell me now or tell me then  
So do ya think its gonna end  
Well I'm thinking about your mum  
Set it out now set it right  
When the buildings and your mum collide  
Well I'm thinking about your mum

[Verse Two]

Mum said a mum's gotta dance all night  
Listen to the rooms rock when she's sleeping  
Everybody's running when she splits those tights  
Talking to the pork but the pork pots empty  
You can't compete with those tattoos  
I go where I can but I know she can see me  
Don't make no lunches, Plenty of punches  
She sold me off with no-one knowing
